

# Database Setup

## PostgreSQL & GORM Steps/Commands

- More instructions for Database setup: Click into the code repo and open setup-instructions.txt
- Install PostgreSQL
- createdb mydb
- Then in your Go project:
- go get -u [gorm.io/gorm](https://gorm.io/gorm)
- go get -u gorm.io/driver/postgres

# Mobile App Setup

## Flutter Steps/Commands

- `flutter create my_project_name`
- `cd my_project_name`
- `flutter run`
- (You'll need Flutter SDK installed first: <https://docs.flutter.dev/get-started/install>)
